I'm Sahash — a frontend developer passionate about crafting responsive, accessible, and visually appealing websites. My expertise lies in HTML, CSS, JavaScript, and frameworks like React and Next.js. I use tools like Tailwind CSS, Figma, and Framer Motion to build clean, performant interfaces with great user experiences. I'm always learning and enjoy working on modern web projects that blend functionality with design.

EXPERIENCE

GDSC (Google Developer Student Clubs) Design and Graphics Member:

Member- 2023

- Actively contribute as a member of the GDSC Design and Graphics
- Team at Kristu Jayanti College.

Web Development Intern — Kristu Jayanti Software Development Centre

June-July 2024

- Collaborated with a development team to design and build responsive web interfaces for internal tools and college-related portals
- Worked primarily with HTML, CSS, JavaScript, and Bootstrap, focusing on UI/UX improvements and mobile responsiveness
- Gained hands-on experience with version control using Git, and followed Agile-inspired workflows

Freelance Frontend Developer | Travel Blog Website, 2024

June-July 2024

- Designed and developed a fully responsive travel blog using Next.js, Tailwind CSS, and Markdown for content structure
- Integrated dynamic routing, SEO enhancements, and a lightbox gallery for images
- Deployed the site on Vercel, ensuring fast load times and smooth user experience across devices

Lead Developer — Real-Time Chat App

Jan 2025–Mar 2025

- Built a mobile chat app using Kotlin and Firebase
- Designed user-friendly UI and integrated real-time messaging features

Frontend Developer — Portfolio Website

Jan 2025 – Present

- Designed and developed a personal portfolio using Next.js, Tailwind CSS, and Framer Motion
- Deployed via Vercel with SEO and accessibility best practices
